

# Kai and Charlie's World War adventure.

A SHORT STORY

Emma Skillen and Fionnán Cunningham

## Chapter 1. Evacuated

One day two twin brothers called Charlie and Kai were evacuated from their home in the town to the countryside. The people who they stayed with were called Lee and Lisa Morgan. They were very mean but lived in a very big house.

## Chapter 2. Spies everywhere.

One day they were cleaning the outside windows when they noticed something behind a tree, there were two men with cameras they were taking loads of photos of the house. Charlie and Kai were very frightened they didn't know what to do.

## Chapter 3. Oh no!

When the men noticed the boys they went over to them and asked what their names were. The boys replied "Charlie and Kai", then the men wrote the boys names down and ran away. The men didn't notice they had dropped a sheet of

data about them. When the boys noticed the paper they started to read it and were very worried.

## Chapter 4. Worried.

When their owners came home they saw them reading the data and they snatched the sheet off them and sent them inside to clean the floor. But when the boys were cleaning the floor Charlie noticed Lisa reading the data. He could feel they were going to get badly punished any minute.

## Chapter 5. The punishment.

Lisa walked over to the boys and started shouting at them, she shouted “YOUR PUNISHMENT IS TO CLEAN THE WHOLE HOUSE EVERY SINGLE DAY INSIDE AND OUTSIDE” The boys started to get worried more than ever. The next day the boys woke up early and started to clean the house. When Kai was cleaning the living room he saw a piece of paper in a glass vase. It was the data sheet that the men had dropped. Kai

called Charlie over and they found out the men's names and that they were working for Hitler and spying on families in the country.

## Chapter 6. More evacuees.

When Lisa and Lee woke up they went out and left the boys outside to clean the windows. When the boys started to clean Kai turned around because he heard something talking. It was another evacuee. He called Charlie and Kai over. He told the boys his name was Connor. Connor told them all about who he was staying with. He also told the boys there was another evacuee called Jaedyn who was his sister. Kai wanted to see Jaedyn she was evacuated very far away from the boys. Connor said that he had ran away to get the mailman and had accidently ran into Lisa and Lee's garden.

## Chapter 7. The plane crash.

When Lisa and Lee came home Connor had to run back to his owner. Charlie and Kai were

allowed to go and play for an hour. The boys went to find Connor and Jaedyn. They found them on a farm and then Jaedyn spotted something moving in the sky. She figured it out it was a plane about to crash. They all had to run for their lives. The plane crashed right behind the children and Kai and Connor were injured. Later on Jaedyn and Charlie went to the place where the plane had crashed and they found the pilot injured badly. Charlie then went to get the Doctor while Jaedyn stayed with the pilot.

## Chapter 8. Spies and a Soldier.

The next day Charlie went out to find Jaedyn and Connor but Connor was still injured like Kai. So Charlie and Jaedyn went to the farm to play and Charlie told Jaedyn all about how he snuck out of his owner's house. They went over the fence to a lake and sat down when a soldier sneaked up behind them and shouted "BOO". The children were scared at first then they turned around and saw a soldier. Charlie told the soldier about the men who he thought were spies. The soldier told

him not to be worried and asked him if he had any data about the men. Charlie replied, “Yes” and handed the data to him and the soldier told him he would track down the men and then the soldier walked away. Soon Lee and Lisa came home and asked who that soldier was. Charlie didn’t know what to say so he just said “I dunno.” Lisa told him to go to his room now! Charlie went to his room and he looked out the window and saw the men he thought were spies. He told Kai to come over and look so Kai did. They were shocked to see that their owners were working with spies who work for Hitler. The next day Kai wasn’t injured anymore so the boys went downstairs and started to clean. Kai heard someone knocking at the window so he turned and saw the soldier and Connor outside. Kai told Charlie and he opened the window. The soldier told them he found the men and they were locked up. The boys told him that their owners were working for the men and the soldier was shocked to hear it. He said “I might have to lock them up too!” Kai heard Lee coming down the

stairs so he said “Bye!” super quickly and shut the window and he started to clean again.

## Chapter 9. Owners locked up!

The next day Kai woke up really early and went downstairs to get something. An hour later Charlie woke up and went to find Kai. Kai had found what he was looking for, Lee’s camera! As soon as Kai heard someone coming down the stairs he hid the camera but it was just Charlie. 2 Hours later Lee and Lisa came downstairs to eat then leave but they didn’t leave after food. Lee went to find his camera but he couldn’t so he started shouting at the boys “DON’T JUST STAND THERE LOOK FOR MY CAMERA!” So the boys started to look and Charlie found the camera and said “Found it” After that Lee and Lisa left the house and let the boys go and play until they got back. While they were driving the soldier spotted them and stopped them. He took them into his jeep and locked them up. After the soldier locked them up he went to their house, got Charlie and Kai and brought them to Connor

and Jaedyn's owner's house. Kai and Charlie were very happy to be there with their friends. Kai asked the soldier why he had brought them there and the soldier told him that his owners got locked up for working with spies!

## Chapter 10. The new owner.

After an hour staying at the new house Charlie asked what his new owners name was, the woman replied "Amy" and the man replied "Richard." Now that the boys knew their owners names they didn't have to call them owner. The boys were excited to stay with someone new plus they could play with their friends every day. The next day the children went to hang out on the farm. Charlie told the other two it was his and Kai's birthday the next day. The boys were very excited to turn 10 tomorrow.

## Chapter 11. The birthday.

The next day the boys turned 10. They were sad their mum wasn't there but they were happy it

was their birthday. Connor woke up first. He made them a birthday cake and breakfast and then Amy woke up and she woke up Richard. Jaedyn woke up last and then she went downstairs. Everyone sat at the table waiting for Kai and Charlie to come downstairs. Eventually the boys came down and got shocked that they got a party. They all went outside and the animals were wearing party hats. They had races on the animals. First Kai raced Charlie on the cows. After playing for a while the mailman came and Kai and Charlie were shocked because their mum had come for their birthday.

## Chapter 12. Mum is here!

The boys were so happy that their mum had come to their birthday. Their mum had brought them a present. The boys opened their presents. They were happy they got chocolate and a pair of pyjamas. The boys closed their eyes and everyone started singing happy birthday to you then the boys opened their eyes, blew out the candles and made a wish. Everyone went outside and ate cake

when the soldier arrived. He brought presents for the boys.

## Chapter 13. Going home!

They were lucky that their birthday was on the last day of World War 2. They didn't know that it was the last day of the war. Their mum had also come to say that she was coming back tomorrow to collect them and bring them back to their own home. The next day the boys woke up early and were more excited than ever but they also thought that their father had died which he hadn't. The boys mum came to pick them up after breakfast. They were very surprised to see someone in the car. They didn't know it was their father until he stepped out of the car. He walked into the house Kai and Charlie jumped on him and they were so happy to see him after 6 years. They were 4 when he left to fight for Britain. Their father said that they had changed so much since he had last seen them. After they got into the car and went home. They were delighted no

houses got bombed near them and that their family was safe.
